

STS Delta Aerospace is a Certified SDVOSB “Service Disabled Veteran Owned Small Business” specializing in the selection, integration, repair, and service of commercial and military RADAR, Communication systems, and associated RF-based sub system assemblies.

Core Competencies

STS Delta Aerospace specializes in the repair, modification, and service of a wide variety of modern and legacy electronic systems, including:

- AN/MPS-T1(V)
- AN/TSQ-T10
- AN/MSQ-T43
- Joint Threat Emitter (JTE)
- Commercial Radar Systems
- Aerostat ISR Payloads
- Broadcast Satellite equipment
- SATCOM DUC’s & EOC’s
- Rf electronics CCA repair
- Microwave & Telemetry equipment

Capabilities

STS Delta Aerospace offers over 40 years combined experience in Military and Commercial RF electronics integration, test, field support and repair. Based in N.E Pennsylvania, STS Delta Aerospace supports CONUS and OCONUS customer needs.

Differentiators

Services capability includes extensive Radar System experience in field service repair, maintenance, and modernization of systems. STS can assist in reverse engineering, procurement, and fabrication otherwise un-obtainable electronic system components. We have hands on experience with surveillance/range threat, electronic warfare radar, SATCOM, Aerostat I.S.R payload, and electronic aviation counter measures.

STS Delta Aerospace supports rapid response capabilities, with immediate asset deployment to ensure the highest degree of customer service with swift turn-around time on service repairs. Technicians are equipped with up-to-date, flyable, field use electronic test equipment. A private aircraft is available for immediate dispatch if needed.

STS Delta Aerospace is owned and operated by a U.S Army aviation veteran with an in-depth working knowledge of RF and Electronic systems with over 20 years of years of practical experience.

Current Bench/Field Electronic Test Equipment

- Rhode & Schwarz FSC6 16/B22.02 Spectrum Analyzers
- Keysight E4416A Power Meter
- Keysight DSOX2024A Oscilloscopes
- Instek ARB Waveform Generators
- Instek GPC-3060D Variable DC Power Supplies
- Instek Benchtop Digital Multimeters GDM-8531
- Fluke 117/323 Multimeter/Amp meter
- Fluke handheld Multimeters, Hakko and Weller soldering stations
